**National Forests ([listed here](#))**

USDA Forest Service rules for carry in a National Forest are simply whatever the carry laws of the state the forest is in.

For Georgia that means only the buildings on Forest land are off-limits as they would be a publicly owned building.

**National Wildlife Refuge Federal Regulation 50 CFR 27.42**

(e) Notwithstanding any other provision in this Chapter, persons may possess, carry, and transport concealed, loaded, and operable firearms within a national wildlife refuge in accordance with the laws of the state in which the wildlife refuge, or that portion thereof, is located, except as otherwise prohibited by applicable Federal law.

(concealed carry with a license on the land but not in the buildings)

### **No Signage Laws**

A "No Firearms" sign on a private business does not mean anything. If your firearm is noticed, they simply ask you to leave. If the police arrive and you still refuse to leave you can be charged with criminal trespass. You keep your permit even if convicted.

However, some "public gatherings" (and any of the areas [off-limits](#)) such as a county hospital or the post office may have signs posted to inform you they are off-limits. You probably will lose your permit for several years if convicted.

So, just because you see a sign does not mean it is or isn't off-limits and just because you don't see a sign does not mean it is or isn't off-limits.
